## ESTATE OF LG WILLIAMS, ANTHOLOGY (1987-2012)

Gloria Maria Gallery invites Super Window Project, Milan, Italy

November 15 - December 21, 2012

LG Williams (USA, 1965), early seminal works produced in California in the late eighties. Creative kin of the preminent Beat artist Wally Hedrick, his visual and conceptual strategies involve historical and contextual elements organized in deceptive schemes full of detached irony. Over almost three decades LG Williams built an extensive and iconic body of work that ranges from paintings, sculpture and installation, to photography and video. His artworks comprise large rhizomatic ensembles that allow for multiple, non-hierarchical entry and exit points in data representation and interpretation, gathered under the banner of the Estate of LG Williams.
