This Fucking Sucks™ Catalogue # 12 of 123

Dear Dave:

THE PAIN!!! Fuck, it isn't enough that I have to endure the fucking horrible indignity of surfing every fucking day in the fucking warm, sparkling double blue diamond-headed, Mana charged central Pacific bank fucking Ocean with a bunch of fucking beautiful, thongly clad, amber tanned, happy, fun-freaking-loving maui-wauai e/edu/de-evolved Captain fucking Cook barbequing motherfuckers who never heard of – or give a flying rat bastard's ass about – Hedrick, Heisenberg, Hopper, or fucking Heidegger: now this injustice! Hell, let me lay it out for you straightup, *"Dude, it fucking sucks!"*.

Really, I am fucking taken aback: How on Earth could you not include me in your recent review entitled, *Beyond Geometry*? Of course, fucking nobody – including all the LA-SF-NY Ultra Lounge, suede sashed hipsters, perhaps even you -- has ever heard of me or seen my fucking supra-genius in fucking meta-action, but I mean: what-the-fuck? Is the Artworld now completely controlled by fucking alien ass-herders ??? REALLY!!!! WHAT THE FUCK'S GOING ON HERE!!!! IS THIS REALLY HAPPENING ??? SOMEBODY SCREAM!!!

You can easily remedy this global epidemic by simply including me in your next scheduled article -- irrespective of its scheduled theme, time, talent or taste. Or, perhaps it would be better to say, please fucking include at least one of my fucking high caliber artworks (Hmmm, maybe this one?) from my fucking unrivaled oeuvre [Fr.] in your next essay for fucking *"Critical Pathology"* sake! I know, I know, believe me, *"I FUCKING KNOW * ! ! !"* this is an new/old-fashioned concept from a distant yesterday/past, but this lone fucking characteristic reintroduced at this very ugly moment in time would come as the biggest fucking 'SHOCK' to your smutt-fucking / mutt-loving audience and our Lamenesiac® Age...and perhaps, make you millions of dollars to boot ! ! !

Thank you in advance. I look forward to hearing from you soon at the address provided below,

LG Williams
